Introduction

KT Rwanda Networks Ltd (KTRN) is the only 4G LTE infrastructure company in Rwanda, jointly invested by the Government of Rwanda and Korea Telecom (KT) exclusively for wholesale provision of universal mobile broadband network in Rwanda using 4G LTE technology. The wholesale network service for mobile broadband will help to promote healthy competition for advanced retail services and solutions, and will benefit consumers, enterprises and the nation in transforming Rwanda into the ICT hub of East Africa. The company also provides wholesale fixed services based on its national wide fiber infrastructure to licensed operators in Rwanda.

Project summary

KTRN is looking for a company that fulfils the requirements to bid for LTE RAN services. Below are the required LTE RAN Services;

1. Site Installation, dismantling, GSM/MW pole supply and installation and recovery
2. Concrete, monopole and 10m steel tower construction
3. Rigger Services

General qualifications and required documents

Interested companies must provide the following documents:

1. Have experience of 5 years in performing similar LTE RAN Services
2. Provide 3 recommendation letters of similar related services
3. Copy of Certificate of incorporation
4. Copy of trade License of related services
5. Tax clearance certificate issued by RRA
6. A confirmation that the bidder has an Electronic Billing Machine [EBM]

Please note that if there are significant deficiencies regarding responsiveness to the requirements of this RFQ, an offer may be deemed "non-responsive" and thereby disqualified from consideration.

Quotations

Quotations in response to this RFQ must be all taxes and transport inclusive and presented in Rwanda currency. They must remain valid for not less than sixty (60) calendar days after the offer deadline. Bidders are requested to provide quotations on official letterhead.
